PRE-QUALIFIED FOR Mechanical engineering

STATEMENT BY FIRM Viridis Engineering was incorporated in 2013. The founding principals, Todd Chase and Curt Bartram, have over 50 years of combined experience with mechanical, electrical, and plumbing engineering. Our firm has expertise in a wide range of markets, including healthcare, industrial, educational, commercial, and military facilities. Our professional expertise has included high-rise structures, major hospitals, central plants, laboratories, cleanrooms, major airport expansions, correctional facilities, schools, wastewater treatment plants and many other project types. This background sets Viridis Engineering apart as a firm that can easily handle a multitude of project types and complexities.
